

DEDI KUSNIADI

ABOUT ME

My goal is to give the best I can to the organization I work for, upholding reliability and responsibility, in order to achieve both professional and personal satisfaction as well as growth.

EDUCATION

Bachelor's Degree in Informatics Engineering, 2007-2010
UNIKOM

WORK EXPERIENCE

Senior Frontend Developer – Axiata Digital Labs

- Developing frontend architecture using Angular Framework and Angular Material, implementing responsive UI/UX with CSS and Bootstrap, and integrating modern technologies such as TensorFlow. Acting as a mentor for the frontend team and ensuring code quality through code reviews and the application of best practices.

Frontend Developer – Axiata Digital Labs

- Building responsive web interfaces using Angular, HTML5, CSS, and Bootstrap, as well as integrating WebSocket for real-time communication. Contributing to application feature development with reusable code and cross-team collaboration to ensure optimal API integration.

Senior Software Engineer – PT. Kreasi Digital

- Developing web applications using Laravel, Angular Material, and React.js, with a focus on responsive web design. Contributing to building interactive front-end features and integrating with the back-end, while maintaining code quality and interface consistency.

Senior Web Developer – Ayo Media Network

- Building and optimizing websites based on PHP, CodeIgniter, and MySQL with a modern interface powered by Vue.js. Implementing responsive design using Bootstrap and CSS, while supporting cross-platform application integration with Flutter.
