DEDI KUSNIADI

Senior Frontend Engineer | 13+ Years Software Dev (6+ Years Frontend Focus) | Ex-Axiata Digital Labs

Bandung | Remote | +62 822-1501-2841 | dedikusniadi.bisnis@gmail.com | linkedin.com/in/dedi-kusniadi | github.com/dedikusniadi2026 | dedikusniadi.my.id | Available Immediately

PROFESSIONAL SUMMARY

Software Engineer with 13+ years experience (2013 - Mar 2026), with 6+ years focused as Senior Frontend Engineer at enterprise scale. Frontend specialization 2020 - Mar 2026 at Axiata Digital Labs (Telco) & BTPN Banking, serving 250K to 10M+ users. Core: Next.js 14 (App Router), React.js, TypeScript, TanStack Query, Zustand, Tailwind CSS, WebSocket, Web Worker, Leaflet. Seeking Senior / Lead Frontend Engineer (React/Next.js) - Fully Remote, Available Immediately.

Key Impact: National Logistics 1.2M shipments/year, 2000 dispatchers: 30s -> 1s (97%). LCP 8.1s -> 2.4s. 50k-row 5fps -> 60fps. A11y 62 -> 95.

TECHNICAL SKILLS

- Frontend Core: React.js, Next.js 14 (App Router, SSR, SSG), TypeScript, JavaScript (ES6+), Tailwind CSS, Zustand, TanStack Query, Angular 2-17, RxJS, NgRx, HTML5, CSS3, Ant Design, Angular Material
- Security & Banking (for BTN/BTPN): OWASP Top 10 2021/2025, XSS/CSRF Mitigation, DOMPurify, Helmet.js, CSP/HSTS/X-Frame-Options, httpOnly Secure SameSite Cookies, JWT, OAuth2, Rate Limiting (Redis), OJK & BI Compliance
- Performance: WebSocket, Web Worker, Leaflet, Virtualization (react-window), Code Splitting, Lazy Loading, Lighthouse, LCP Optimization
- Practices: Frontend Architecture, Design Systems (Figma Tokens), Mentoring 4-6 devs, RCA, Code Review
- Tools: Git, GitLab CI/CD, Docker, AWS, Redis, PostgreSQL, MySQL
- Backend Familiar: NestJS, Go, Laravel, Node.js, TypeORM, RabbitMQ

PROFESSIONAL EXPERIENCE

Independent / Open Source Engineer - Full Stack R&D | Mar 2026 - Present | Bandung (Remote)

React, Next.js 14, TypeScript, NestJS, PostgreSQL, Redis, Docker, WebSocket, Zustand, Leaflet, DOMPurify, Helmet.js

- During career break, built end-to-end Full Stack platforms to expand from Senior Frontend to Full Stack: Logistics Tracking Platform (1.2M shipments/year), ERP modules (inventory & order management), and Bank-Grade Security System - Full R&D documented in GitHub & SECURITY.md
- Logistics Platform: Cut map lag 30s → 1s (97%) for 2,000 dispatchers using WebSocket + Web Worker + Zustand per-domain state + Leaflet code-split. LCP 8.1s → 2.4s on low-end warehouse tablets
- ERP & Backend Learning (NestJS): Built NestJS REST APIs from scratch - Auth with httpOnly Secure SameSite cookies, RolesGuard & PermissionsGuard, TypeORM + PostgreSQL, Redis caching & session, RabbitMQ messaging for ERP workflows
- Bank-Grade Security (OWASP Top 10): Implemented httpOnly cookie auth (no localStorage), Helmet for CSP/HSTS/X-Frame, XSS sanitization with DOMPurify, CSRF SameSite+token, rate limiting & brute-force protection with Redis + Throttler, audit logging interceptor & token blacklist for logout - Ready for BTN/BTPN security review

- Live Demo & Code: dedikusniadi.my.id/security-demo + /logistics-demo | github.com/dedikusniadi2026 - Docker Compose 1 command up (FE/BE/Redis)

Senior Frontend Developer | AXIATA DIGITAL LABS | Aug 2023 - Mar 2026 | Frontend Focus Year 4-6

React, Angular, TypeScript, Tailwind, WebSocket, Ant Design, GitLab CI/CD

- Project 1 - Connectivity+ (XL Axiata Enterprise): Enterprise connectivity platform - Architected data grid (50k rows) 5fps → 60fps via virtualization (react-window), WebSocket real-time status, route-level code splitting - Cold start 40% faster
- Project 2 - Telin WhatsApp Business Platform (10M+ users): Telin self-service portal - Rebuilt billing & service orders - A11y 62 → 95, onboarding 5 → 2 steps via Figma Token System, bundle /2 - Cut support tickets 30%
- Project 3 – Axonect Open API (Sri Lanka / Axiata Group): Enterprise API lifecycle management portal for Axiata operating companies (including Dialog Sri Lanka) - Built developer portal & API subscription flow (Angular/React), OAuth2 & rate-limit visibility - Centralized API governance for 15+ business units
- Project 4 – Accessibility Widget Plugin (WordPress): Built WCAG-compliant accessibility widget for disability users (screen reader, keyboard nav, contrast toggle, font scaling) - Vanilla JS embeddable plugin - Improved A11y 62 → 95
- Project 5 – eWorking Permit (XL Axiata - Compliance): Digitized paper work permit (5 days → 1 day) - Built wizard (Angular Material) with draft save, conditional validation, PDF generation + audit log - 100% paperless, 10K+ permits/month, cut errors 60%
- Project 6 – BAU Apps (Quota & Package Checker + Call Center) – Angular: Self-service portal for customers & call center agents to check pulsa quota, data packages, service status - Angular + REST APIs integrated with telco core (charging & CRM) - Real-time quota polling & agent dashboard
- Project 7 – ADA Business Messaging Core (bizmsgcore.ada-asia.com): WhatsApp BSP platform, official WhatsApp Business Solution Provider in APAC - Multi-channel inbox WA/SMS/LINE/RCS, 1000+ accounts, MSAL auth, template & broadcast - Live: bizmsgcore.ada-asia.com

Frontend Developer | AXIATA DIGITAL LABS | Jul 2020 - Aug 2023 | Frontend Focus Year 1-3

Angular, React, TypeScript, RxJS, Angular Material, Tailwind, REST, WebSocket

- Started dedicated Frontend career path at Axiata Group scale
- Built reusable design system components adopted across Telin & XL Axiata teams
- Integrated frontend modules with REST & WebSocket for real-time features

Senior Full Stack Developer | PT KREASI DIGITAL | Jan 2020 - May 2020 | Software Dev Year 7

Tech: React, Angular, Laravel, PHP, MySQL, REST APIs, POS System

- Developed POS SaaS: product catalog, cart, checkout, payment, receipt printing
- Built frontend React & Angular, backend Laravel REST APIs for high-volume retail transactions

Senior Web Developer | AYO MEDIA NETWORK | Oct 2019 - Dec 2019

Tech: Flutter, Dart, PHP, CodeIgniter, MySQL, REST APIs

- Developed digital media apps Android & iOS using Flutter & Dart, integrated with REST APIs

Frontend Web Developer | PT BANK BTPN TBK | Jun 2019 - Sep 2019

Tech: Angular, TypeScript, Angular Material, REST APIs, OJK, Banking Compliance

- Developed Joint Financial System - nationwide branch banking system integrated with OJK & BI reporting

Web Developer | BISNIS INDONESIA SIBERTAMA | Jun 2018 - Aug 2019

Tech: Angular 8, PHP, CodeIgniter, Ionic, MySQL, REST APIs

- Developed bisnis.com national portal & Gramedia Writing Project - Angular 8 + CodeIgniter REST APIs for high-traffic media

Software Developer | BISNIS INDONESIA GROUP | Aug 2015 - Jul 2018 | Software Dev Year 2-5

Tech: PHP, CodeIgniter, MySQL, Ionic, JavaScript

- Maintained Bandung Bisnis.com portal & Biofarma corporate website
- Built eMagazine Biofarma mobile app Android & iOS using Ionic with offline access

Junior Software Engineer | SPRINGFIELDS ASIA | Aug 2013 - Dec 2013 | Software Dev Year 1

Tech: PHP, CodeIgniter, JavaScript, MySQL, jQuery

- Developed KPK Gratification System (Anti-corruption) with Australian Tech Lead
- Implemented secure reporting workflows, validation, and data handling

KEY PROJECTS & IMPACT

- Enterprise Logistics Management System (Portfolio: dedikusniadi.my.id) - React, TS, Zustand, Leaflet, WebSocket: 1.2M shipments/year, map lag 30s → 1s
- Telin WhatsApp Business Platform - Angular for business messaging serving 10M+ users
- Connectivity+ - XL Axiata - Enterprise connectivity platform (React, TS, Ant Design, WebSocket)
- Joint Financial System - BTPN - Nationwide banking integrated with OJK & BI
- Axonect Open API - Enterprise frontend (Angular, TS) for API lifecycle management
- Bank-Grade Security R&D - React + NestJS + Redis + Docker - OWASP Top 10 - dedikusniadi.my.id/security-demo

EDUCATION

Bachelor of Informatics Engineering - Universitas Komputer Indonesia (UNIKOM), Bandung | 2007 - 2011
