PROFESSIONAL SUMMARY

Senior Frontend Engineer with 13+ years (2013-Present) building enterprise-grade web platforms serving 250K to 10M+ users. 6+ years focused on large-scale frontend at Axiata Digital Labs (Telco), BTPN (Banking), and national media. Recent stack: Next.js 14 (App Router), React.js, TypeScript, TanStack Query, Zustand, Tailwind CSS, Angular 2-17. Expert in performance optimization (8.1s to 2.4s, Lighthouse 90+), real-time apps (WebSocket), reusable design systems, and scalable frontend architecture. Proven in leading frontend, mentoring, RCA, and cross-team collaboration. Seeking Senior Frontend Engineer (React/Next.js) - Fully Remote, Available Immediately.

TECHNICAL SKILLS - OPTIMIZED FOR ATS

Frontend Core (ATS Keywords): React.js, Next.js 14 (App Router, SSR, SSG), TypeScript, JavaScript (ES6+), Tailwind CSS, Zustand, TanStack Query / React Query, Angular (2+ to 17, Angular 8), RxJS, NgRx, HTML5, CSS3, Responsive Design, Ant Design, Angular Material, Bootstrap
Integration: REST APIs, WebSocket, JWT, Fetch, Axios, Open API, OJK & Bank Indonesia Integration, OAuth2
Practices: Frontend Architecture, Design Systems, Reusable Components, Performance Optimization, Virtualized Lists, Code Splitting, Lazy Loading, Root-Cause Analysis, Code Review, Unit Testing (Karma/Jasmine)
Tools & Infra: Git, GitLab CI/CD, Docker, AWS, Redis, PostgreSQL, MySQL, Postman, Agile/Scrum
Mobile (Secondary): Flutter, Dart, Ionic, Android, iOS

PROFESSIONAL EXPERIENCE - FULL HISTORY

Senior Frontend Developer | AXIATA DIGITAL LABS | Aug 2023 - Present (Open to Work)
Tech: React, Next.js 14, TypeScript, TanStack Query, Zustand, Tailwind CSS, Angular, RxJS, Angular Material, WebSocket, GitLab CI/CD
- Led frontend for enterprise-scale telco platforms (Axiata Group) serving 250K+ users, owning architecture for maintainability & scalability
- Architected reusable UI components & design system shared modules, reducing duplicated code and improving consistency
- Migrated legacy Angular modules toward React/Next.js patterns, integrated REST & WebSocket for real-time workflows
- Performed RCA and production troubleshooting for high-availability systems, mentored 4-6 frontend devs via code reviews

Frontend Developer | AXIATA DIGITAL LABS | Jul 2020 - Aug 2023
Tech: Angular, React, TypeScript, RxJS, Angular Material, Tailwind, REST, WebSocket
- Developed & maintained enterprise web features with Angular, TypeScript, RxJS, Angular Material
- Built responsive interfaces & design system components adopted across multiple teams
- Integrated frontend modules with REST APIs & WebSocket for real-time features
- Resolved production defects, participated in sprint planning, testing, code reviews, releases

- Collaborated with Product, UI/UX, Backend, QA, DevOps

Senior Full Stack Developer | PT KREASI DIGITAL | Jan 2020 - May 2020
Tech: React, Angular, Laravel, PHP, MySQL, REST APIs, POS System (Moka-like)
- Developed POS System retail SaaS: product catalog, cart, checkout, payment, receipt printing, daily sales reports
- Built frontend with React & Angular, backend with Laravel - REST APIs for product, inventory, transactions, sales reporting, user/role
- Designed MySQL DB for products, variants, stock movements, transactions ensuring consistency for high-volume
- Integrated frontend with backend for real-time stock updates & dashboards

Senior Web Developer | AYO MEDIA NETWORK | Oct 2019 - Dec 2019
Tech: Flutter, Dart, PHP, CodeIgniter, MySQL, REST APIs, Android, iOS
- Developed & maintained digital media apps for Android & iOS using Flutter & Dart
- Built RESTful APIs with CodeIgniter & PHP for content delivery, user management, media integration
- Integrated mobile apps with backend REST APIs, JSON, auth, offline/online sync
- Improved responsiveness, performance, usability for both platforms

Frontend Web Developer | PT BANK BTPN TBK | Jun 2019 - Sep 2019
Tech: Angular, TypeScript, Angular Material, REST APIs, OJK, Bank Indonesia, Banking Compliance
- Developed Joint Financial System - core banking system for BTPN branch offices nationwide
- Built enterprise banking interfaces with Angular, TypeScript, Angular Material, reusable components
- Implemented modules integrated with OJK & Bank Indonesia regulatory reporting for compliance
- Collaborated with compliance & backend teams for regulatory alignment & data accuracy

Web Developer | BISNIS INDONESIA SIBERTAMA | Jun 2018 - Aug 2019
Tech: Angular 8, PHP, CodeIgniter, Ionic, MySQL, REST APIs, bisnis.com, Gramedia
- Developed & maintained bisnis.com - national business news portal - frontend Angular, backend PHP/CodeIgniter
- Built Gramedia Writing Project - client project for Gramedia - Angular 8 frontend + CodeIgniter REST APIs for CMS & author workflows
- Integrated frontend apps with backend services & databases handling high-traffic media content
- Supported maintenance, bug fixing, business-driven enhancements

Software Developer | BISNIS INDONESIA GROUP | Aug 2015 - Jul 2018
Tech: PHP, CodeIgniter, MySQL, Ionic, JavaScript, Bandung Bisnis.com, Biofarma
- Maintained & enhanced Bandung Bisnis.com portal - regional business news - content updates, bug fixes, performance
- Developed corporate website for Biofarma (state-owned pharma) - PHP & CodeIgniter CMS
- Built eMagazine Biofarma mobile app for Android & iOS using Ionic - digital magazine reader with offline access, article browsing, push updates, integrated with REST APIs
- Supported deployment, troubleshooting, production maintenance

Junior Software Engineer | SPRINGFIELDS ASIA | Aug 2013 - Dec 2013
Tech: PHP, CodeIgniter, JavaScript, HTML, CSS, MySQL, jQuery
- Developed KPK Gratification System (Sistem Gratifikasi KPK) - anti-corruption reporting system using CodeIgniter, collaborating with Australian Tech Lead
- Implemented gratification reporting workflows, form validation, secure data handling
- Fixed defects & supported frontend with HTML, CSS, JavaScript, jQuery
- Participated in testing, deployment, maintenance in international team

KEY PROJECTS & IMPACT

- Telin WhatsApp Business Platform - Angular frontend for business messaging & campaign management serving 10M+ end users; scalable UI workflows for high-volume messaging
- Connectivity+ - XL Axiata - Enterprise connectivity platform (React, TypeScript, Ant Design, WebSocket) for device status, usage dashboards, service management
- Joint Financial System - BTPN - Nationwide branch banking system integrated with OJK & BI regulatory reporting
- Axonect Open API / API Management - Enterprise frontend (Angular, TypeScript) - reusable UI modules & responsive layouts for API lifecycle management
- bisnis.com & Gramedia Writing Project - National media portals (Angular 8 + CodeIgniter REST APIs) high-traffic
- eMagazine Biofarma & Bandung Bisnis.com - Media mobile apps (Ionic, Flutter) Android/iOS offline access
- Moka-like POS System - Retail SaaS POS with transaction, inventory, reporting (React, Angular, Laravel, MySQL)
- Enterprise Logistics Management System - Portfolio: React, TypeScript, Zustand, Leaflet, WebSocket - dedikusniadi.my.id

EDUCATION

Bachelor of Informatics Engineering - Universitas Komputer Indonesia (UNIKOM), Bandung, Indonesia | 2007 - 2011
